VOL. 5

MONITOR, ALBERTA, FRIDAY, JULY 30

1920.

NO. 32

MONITOR'S BOOM BEGINS

Apparently No Sugar Shortage

The situation is greatly improved as regards supply, and the indications are that we will be able to fill all orders with which we may be favored from now on. We will, therefore, discontinue the practice of shipping on allotment, and in future sugar will be shipped only as ordered. We are carrying ample stock and can afford prompt shipment of all orders received. We will appreciate your orders for sugar.

The foregoing paragraph was taken from a circular sent out to all merchants by an Edmonton firm and would tend to explode the theory that we are faced with a shortage of sugar again. Firms and corporations that have a huge supply of sugar on hand, would naturally be desirous of getting rid of it now that a supply is guaranteed. This would probably account for the notices that have appeared from time to time advising the public that a famine in this commodity is impending.

Corner-Stone is Laid

On Monday morning last the corner-stone of the new building for the Canadian Bank of Commerce was laid by the local Manager, Major J. C. Matheson. The ceremony was brief and was only attended by those immediately interested. The official photographer was present. There was also present Mr. B. Sandy MacDonald, who arrived quite unexpectedly and was very warmly received. Mr. MacDonald is quite an old gentleman, but looked exceedingly good.

NOTICE

I wish to inform the travelling public who are in the habit of using my gate, that this is a private gate, and that unless those passing through shut the gate after them, I will take the gate away altogether.
J. F. Ingersoll

The week-ending July 31st, 1920, will go down in history as the turning point in our career. Oil drills commenced the work of actually drilling. Two shifts of men working 12 hours to a shift will keep the wheels turning 24 hours a day--the West Regent Co. leads the ball. Grading and ditching on the roads in town was commenced. Corner-stone laid and bricklaying started on the \$20,000 Bank of Commerce building. Generous rain assures a good crop--bury the hammer, buy a bell--
HOORAY--LET'S GO!

Oil News

Mr. Livingston the oil magnate of Calgary, was a distinguished visitor to Monitor during last week. Mr. Livingston while in Texas last fall, discovered and worked a well, with a 500 bbl. capacity, using the same Rotary Drill that is at present in use on the West Regent Company, south of town. Mr. Livingston is also the owner of a producing oil-well in the Okotoks oilfields, and expressed the opinion that the location of the West Regent outfit was A number One. He also is the holder of several leases in the Monitor district, and it is confidently expected that he will start drilling on them in the near future.

The Californian Company, with holdings east of town, have sent word that some of their material is shipped to this point. The O. K. Livery has received instructions to start unloading on its arrival.

The Calgary company has shipped its outfit to this point and construction will start either this week, or the beginning of next.

It is unofficially rumored continued in next but one

Telegraph and Express and a live weekly newspaper.

Our live merchants are addressing you in this weeks paper. It is to your mutual advantage to patronise those merchants who think enough of their own town, to support its newspaper

Rev. E. Davidge was a visitor to Coronation, Veteran and points west during the past week.

that the Czar well has struck something that is pretty good. Judging from the activities shown by the Imperial Oil Company, it is evident that there is something there besides Gas. It is also understood that there was an immediate exodus to Monitor district by the Oil men from Czar, who brought their geologist with them, and insofar as we can ascertain, their site has now been located.

J. O. Williams of the Mud Butte Oil and Gas Development Company reports that their paraphanelia is now on the road. Erection of their derrick will start as soon as material arrives.

NOTICE

All Lease holders in the Monitor Oil and Developing Co. Ltd. are requested to attend a meeting on the evening of Aug. 4 Important Business.

Here's A Buy For Someone

A fifty-foot corner lot in the Village of Monitor (Lot 14 Block 5) for \$200.00. Apply to Warner quickly.

Local Happenings

R. M. Lee, Esqre, accompanied by the Miss Graham and Fleming of Provost Alta, paid a brief visit to Monitor while en route to Calgary by auto, on Friday last week.

It is very apparent from the samples of different grains we have received at this office, that there is nothing wrong with the crops in Monitor district. More especially is the Rye crop worthy of mention. Last Monday W. H. Sinclair brought us in a hill of Rye sown on May 28th measuring 65 1/2 inches from end to end. This is by far the best sample of this grain we have seen yet. Mr. Sinclair has a very fine stand of rye measuring on the average about 58 inches.

We understand Mrs. Peterson has accepted the position as cook at the West Regent Oil well, south of town.

We regret to state that Miss R. Cameron, the stenographer at the Bank of Commerce here was suddenly called to her home on Saturday last. She received a wire that her mother was seriously ill.

Charlie Yee paid a trip to Kirriemuir last Sunday on another fruitless effort to secure a cook for the Star Cafe.

Mrs. MacKenzie paid a visit to the country the early part of the week.

Word was received at this office during the past week, that everything, with a few minor exceptions, pertaining to the printing business had advanced in price, averaging 12 1/2 per cent. Just how long we can manage to struggle along under the existing circumstances, depends a lot on the support we get from the citizens of this community, and the manner in which arrears of subscriptions are paid up. In the past three months, no less than 58 publications in Canada have definitely suspended publication owing to the high costs. We would hate like the mischief to have to follow suit.

Keeping Them on the Farm

At a convention held recently in the province of Quebec and attended by a large number of the clergy, farmers and officials of agricultural societies it was decided to start a general campaign to promote the love of agriculture in rural districts and discourage the exodus of the farming classes to the cities.

The last annual report of the Ontario Department of Municipal Affairs tells the same story that has been recorded in that volume for some years past of a decline in rural population and an extraordinary increase in the population of cities, towns and villages.

Crop statistics for the three Western provinces of Manitoba, Saskatchewan and Alberta for this year show a marked decline in the number of acres seeded as compared with last year, while in one of these essentially agricultural provinces, Manitoba, approximately one-third of the total population is to be found in the city of Winnipeg.

The condition of things thus disclosed is a terribly serious one for Canada. For some years now it has engaged the thought of public men and students of economics, and those interested in social problems; but, as yet, no one appears to have discovered a solution of the problem which, however, must be solved in the interests of all. It is a problem, the solution of which must not be left to governmental bodies alone, but one in which every individual citizen must, in their own interests, take a hand.

Many causes are alleged as being responsible for this exodus from the country to city. Some say it is the loneliness, the isolation of country life, the lack of those conveniences and comforts to be found in the cities, the distance from doctor, druggist, dentist and nurse in times of sickness and accident. Others allege it is the increasing difficulty in securing competent farm-help both for the field and the home, and the consequent drudgery and hard work imposed on the farmer, his wife and children, and which, in the case of the latter especially, induces them to leave the farm. Still others say that the real cause, which is in a large part responsible for these other conditions, is the fiscal and economic policies of Canada which are designed to encourage and develop manufacturing activities in urban centres and which by their encouragement of commercial and financial businesses lead to the payment of good wages and large salaries in the cities and towns while the farmer has to struggle along under high costs of necessities and at the same time sell his product in the open and competitive markets of the world. Finally, it is argued, people have changed; their habits of living are different; the younger generation long for the bright lights, the close companionships, the thrills of the movies, the shorter hours of work, and all the amusements which city life affords in comparison with the long day routine of the farm.

Some or all of these things may be true, but farm life has compensating advantages which are too often overlooked. It is a healthier, much more independent life than the city dweller leads, and in the long run a happier life. If the city worker earns more in wages or salary, he has to spend more to keep body and soul together, and when a balance is struck at the end of the year, it is doubtful if the average city worker is as well off as the average farm dweller.

However, the situation exists, and must be faced. If a farmer finds his boys and girls restless and longing for city life he should earnestly strive to find out the cause, and, if it is within his power to meet it, to do so. Is it the lack of companionship and association with others which the city affords? If so, the installation of a rural telephone will help, just as it will also serve to bring the doctor and nurse nearer in times of emergency. If this lack of companionship and the absence of enter-

tainment which the city supplies is the trouble, the farmer should interest his neighbors in making provision for a community centre where these drawbacks can be overcome.

We have said that farm life is a more independent life. But many growing boys and girls have not found it so, because of the shortsightedness of their parents. In the city, boys and girls have opportunities of earning something for themselves. The same opportunities should be provided on the farm. A city man does not think of putting his son or daughter in his office and expect them to work for nothing but his own and the general family good. He pays them what they are worth. On the farm the same principle should be applied. If the young men and young women cannot be paid in cash, they should be encouraged by the ownership of some livestock, or the proceeds of a certain bit of land. They, too, should be helped to independence.

United Farmer and Grain Grower organizations, Homemakers' Clubs, and other rural organizations have a wonderful opportunity before them for promoting the success of agriculture by earnestly striving to solve the problem of the exodus from the country to city. Serious study will expose many of the causes, and conscientious and intelligent effort can hardly fail to remove most of them. It will not do to sit idly by and expect governmental bodies to provide a remedy.

Minard's Liniment Relieves Diphtheria.

Evidence
 Mistress.—Did you water the ferns in the drawing-room, Norah.
 Maid.—Yes, mum. Don't you hear the water dripping on the carpet?

Makes Breathing Easy. The constriction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot daunt Dr. J. D. Kello's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untried, experimental preparation, but one with many years of strong service behind it.

Believes Wheat Control is Advisable

C. B. Watts, secretary-treasurer of the Dominion Millers' Association, thinks the government's decision not to have the wheat board control the prices this year, is not in the best interests of the country.

"I don't think discontinuing control is the best thing when there is government buying abroad," Mr. Watts said in an interview.

"Under these conditions I think we should continue government selling in this country."

SHORT OF BREATH Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble, one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N.S., writes:—"I suffered for five years with heart trouble. I could hardly breathe, and I felt as if I were in a barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

KIDNEY BACK PAINS PERMANENTLY CURED

Dr. Hamilton Guarantees
 Prompt and Thorough Cure

I can cure you. I have a remedy that has never failed in kidney disease.

My wonderful preparation is known as Dr. Hamilton's Pills of Mandrake and Butterbur.

I guarantee Dr. Hamilton's Pills will restore the worst case of kidney suffering.

Pain in the back, sides and hips will be relieved.

Dizzy spells, headache and reeling sensations will be quickly remedied. Distressing bladder complications, frequent calls, brick dust and sediment I guarantee will entirely disappear under Dr. Hamilton's Pills.

If your rundown and languid condition is cured by Dr. Hamilton's Pills, then you are hopeless.

In thousands of cases Dr. Hamilton's Pills have restored health and more they have built up constitutions that defied further inroads of kidney disease.

Purely a vegetable remedy, free from injurious minerals like mercury and calomel, mild enough for children to use, where can you find a remedy in efficiency to approach Dr. Hamilton's Pills, then you are hopeless.

To be candid, you can't. All dealers sell Dr. Hamilton's Pills, in yellow boxes, 25c.

Lignite Briquette Board

Manitoba is to be Represented at A

Montreal Meeting

J. M. Leamy, representative of Manitoba on the Lignite Briquette Board of Canada, will leave Winnipeg in the near future to attend a meeting of the board to be held in Montreal, it was announced yesterday.

Mr. Leamy stated that satisfactory progress was being made in the erection of the briquetting plant at Binfait, Sask., and that the board expected that small quantities of the finished product would be on the market this year. "It is thought by the members of the board," said Mr. Leamy, "that some briquettes will be available by September. The capacity of the factory is 100 tons per day so that even if the factory is running full capacity by September, the output will not materially affect the local coal situation. It was the intention, he said, to distribute the first products of the factory as widely as possible in order that a general report could be obtained as to the efficiency of the fuel.—Winnipeg Free Press.

The worms that infest children from their birth are of two kinds. Those that find lodgment in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not interfered with work havoc there. Miller's Worm Powders dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

Western Butter for Chicago

Shipping Large Quantities of Butter

To the United

States

One of the large wholesale houses of this city, says the Moose Jaw Times, is developing a new market for dairy butter manufactured in the province, it has been learned from authentic sources. This new outlet is the Chicago market, and a number of carloads have been shipped and sold on the other side of the line by this firm. This class of business caters to the farmers living in districts at some distance from creameries, where there is no market other than local towns and villages.

Producers receive weekly quotations from the wholesaler, and good prices are being paid for the product the quotation last week being 43 cents. Carload shipments are made from Moose Jaw in boxes and containers of all sizes and shapes just as it is shipped in from the producer. The butter is re-manufactured when it reaches Chicago.

Asks Co-Operation From the Farmers

Rural Phones and Good Roads to Link up Farms With The Cities

That the rural districts of Saskatchewan can be assured of an adequate telephone system if the population of the rural districts are willing to co-operate with the government was a statement made by Hon. W. F. Knowles, Minister of Telephones for the province of Saskatchewan, speaking at Henribourg.

"In telephone communication," said Mr. Knowles, "the government is anxious to work out the best policy for the people as a whole." The minister appealed for the districts around Prince Albert to get together and co-operate with this department in devising a system that would link up the farms with the cities.

Another important development of the district Mr. Knowles mentioned was the extensive construction of government roads. These roads were rapidly becoming re-equipped.

It would not only save the farmers unlimited time and expense, but were opening up new farming territory. Many returned soldiers were now settling on the splendid farm lands.

In A Lump Sum

Commutation of Pensions is Now

Being Taken Up

Commutation of pensions, or payment to pensioners of lump sums in final settlement of their pension claims, as provided for by amendments to the Pensions act adopted by parliament is a matter that is now engaging the attention of the board of pension commissioners. These amendments, which were recommended by the special parliamentary committee on pensions provide that members of the forces disabled to an extent between five and fourteen percent, may elect to adopt a final payment in lieu of the small pensions to which they are entitled and are now as low as two and a half dollars a month for an unmarried private with a disability of from five to nine percent.

Will Watch Wheat Market

The Toronto Globe says editorially "It remains to be seen what effect on prices here will follow the decision of the Canadian government that the present wheat board will not function so far as this year's wheat crop is concerned, though that right may be exercised under certain circumstances. The reversion to the pre-war conditions of marketing and dealing will be watched with considerable interest."

Ostriches are raised with success in several parts of California.

Must Pay Royalties on Pelts in B.C.

Regulations have just been issued by the government providing for the payment of royalties by fur traders on pelts and skins of fur-bearing animals. The amount varies from 50 cents on each bear to ten dollars on silver fox. The figure is based on five percent of the commercial value. A fee of \$25 will be charged to fur traders for permits to buy furs at wholesale from licensed fur traders or at sales of furs at public auction.

RED HOT JULY DAYS HARD ON THE BABY

July — The month of oppressive heat; red hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly, will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Children Gain Weight on Milk Diet

Wonderful results are recorded at the school medical office at Vancouver from the experiment of giving milk to children suffering from malnutrition. Individual gains of from one and a quarter to two and one-half pounds in weight are shown.

Members of the school medical staff express confidence that at the close of the present school term a very remarkable improvement will be noted.

Professor Macoun Dies at Victoria

Professor John Macoun, naturalist, botanist and explorer, died recently at Sidney, Vancouver Island, aged 89. From 1866 to 1879 he was professor of botany and he explored Western Canada for the government. He was a Fellow of the Linnean Society and original Fellow of the Royal Society of Canada. W. T. Macoun, of the experimental station, Ottawa, is a son.

Editorial

Doubtless this issue of the News will cause considerable comment from our citizens, many of whom will blame yeed. for telling them things they already know. For their benefit we wish to state that this issue is being sent far and wide to acquaint others with the facts concerning this town, of which we are justly proud. To the members of the "knockers club" with which Monitor is unfortunately cursed, we wish to say that you are expected to snicker and haw-haw every time this number is mentioned. You will also go amongst yourselves and say, with a very mysterious air "Monitor Boom Begins" This will be taken as a great joke by your cronies and great exaltation result. Do what you can to belittle your town for by so doing you will be furthering the ends of the boosters for it is known that every knocker is a liar.

To the boosters, we have nothing to say. Your duty is plain before you, and we for one know that it will be done.

(Continued)

"Aha, I thought you would McTavish. Says I to Smythe this morning: 'Smythe, it doesn't seem to me that this is a very good piece of business judgment on our part; but, says I, 'Smythe, we must consider others rather than ourselves in this matter.' McTavish, now, says I 'he has a couple of youngsters growing up, and they should secure an education such the Clearview school can give them, and if that's the case, we can't blind our eyes to our duty as Christian men.' Smythe is a good Christian man and just that soft-hearted that it's no wonder my words affected him. He says: 'Mr. Watson, money is not everything. Go forth on an errand of mercy, and offer Mr. McTavish of Bushwhackers' Place one bright and fertile hundred acres of loam in Clearview in exchange for his bit of wilderness.' — His very words, McTavish. So I wrote you briefly in order to break the good news gently, and now I am before you to perform an act which, believe me, gives me as much pleasure in a sense, as it does you. I have all the necessary papers, and although the journey is a trying one, I will not complain. I have been five hours in the saddle and have endured a cowardly nigger as guide as far as the Triple Elms. Scums, like between loneliness and mosquitoes, I'm just about fagged out. They are a d— I mean they are a hanged nuisance, mosquitoes."

While his guest unburdened himself, Big McTavish streped strong tea, and fried strips of bacon. Gloss had not yet returned from the spring. The savory smell of the frying meat whetted Watson's appetite, and he needed no second invitation to "set up and eat hearty." He ate wolfishly, his little eyes darting from his food to the face of McTavish, his heavy jaws working, and the muscles of his throat contracting with bo-a-like clasticity, as he gulped down huge mouthfuls of meat and bread. At last he pushed his chair back from the table and wiped his mouth on the back of his hand.

"Now, Mac," he said sabbily, "we'll just have you sign those papers, and I'll turn you over this deed I hold here in exchange for the one you now have. Says I to Smythe this morning: 'Smythe, it's a nice sort of glow a fellow feels after doing a worthy act, anyway. Think what this will mean to the McTavishes.' And do you know he was that soft-hearted he couldn't answer me, and stood there swallowing with tears in his eyes."

"I'm thinkin' that we won't make any swap," said big McTavish quietly. "Neither me nor Boy nor any of us care to leave this big woods. We've been here so long we've grown into it somehow. You see we're not hankerin' to leave."

Watson sat up with a jerk, and the pipe he was filling fell to the floor and broke into a dozen pieces.

"What!" he cried, "do you mean to say, McTavish, that you won't deal?"

"That's what I mean," nodded the big man.

"And you won't change this block of tangled brush for one hundred acres of good, cultivated land?" Mr. Watson leaned forward. "Are you

sure you realize what you are missing?" he asked impressively.

"All I know is, we're thankful to God for what we have now," said big McTavish fervently. "We don't feel like insultin' Him by tradin' what He's given us, sight and unseen."

"Oh, come now, McTavish," blustered Watson, "you must be crazy. Why, man, you will never get another chance such as the one we offer you. Besides, you can't stay here very much longer, anyway. Of course, you've heard what Colonel Hallbut intends to do with you Bushwhackers?"

A deep line appeared between Big McTavish's eyes.

"We don't want any trouble with Colonel Hallbut," he said. "We hear that he has his eyes on our timber. When he comes after it he'll find us here. As for you, Mr. Watson, I wouldn't take your sand farm as a gift, thankin' you just the same."

"Then why in hell have you been letting me waste my breath on you for the last hour?" snarled Watson, his face purple.

McTavish stood up.

"That'll do now," he warned. "There's Gloss comin' up the path, and swearin' is somethin' she has never heard in this house, and before I'll have her hear you usin' cuss-words I'll cram this down your throat and don't you forget it."

He lifted a hairy fist, then sat down and resumed his smoking.

Gloss entered the room, singing blithely. Her shapely arms were bare to the elbows. Her big gray eyes, dancing with life and health, swept the room and rested wonderingly on Watson. He in turn gazed at the girl, and an ash- whiteness wiped out the mottled color of his cheeks. He drew back whispering something under his breath.

"This is Mr. Watson, Gloss," said Big McTavish.

"Good-morning, sir," saluted the girl. "I didn't know that we had a visitor. I see uncle has got you your breakfast, but surely you'll enjoy a glass of fresh buttermilk. I'll fetch it."

She slipped from the room, and Watson looked across at Big McTavish.

"That girl," he asked quietly, "is she your own child?"

"The big man looked up, astonished written on his face.

"No," he answered, "but she's just as dear as though she was our own. Her dyin' mother sent her to us. Why do you ask that?"

Watson was reaching for his cap and rifle. Perhaps he did not hear the question. At any rate he did not reply.

Fifteen minutes later he mounted the weary gray horse and without so much as a word of adieu rode away through the timber.

McTavish stood on the edge of the clearing, his long arms folded, and watched his visitor disappear. Turning, he found the daft child beside him.

"Well, Davie," he said kindly, "hadn't you best run home now, lad? You're all wet with the dew."

The boy waved his arms above his head and imitated an eagle's scream. Then he pointed to the white patch that marked the first blaze of the long trail.

"You mean the man on the white horse, Davie?" asked McTavish, smiling. "Yes, lad, I know."

The boy gazed about him with wide and expressive eyes. Then once more he waved his arms like an ascending eagle, gave a wild call of victory and defiance, and, bending, sped swiftly away and was lost in the heavy shadow.

CHAPTER VII.

Where the Brook and the River Meet.

Big McTavish walked slowly back to the house. In the doorway stood Gloss awaiting him.

"Is he gone?" she asked.

"Yes, Glossie, he's gone."

McTavish picked up the ax which was leaning against the ash-block and turned toward the bush.

"You must just keep your eyes on the soap-fire, Gloss. I'm going down to the swale to cut some sassafras for the yearlin's—they seem aillin'. While I'm down there I might as well mark some basswood saplin's that'll make good sap-troughs. Promised myself last sugar-makin' that I'd have new troughs before another syrup-shillin'."

CURES A COLD QUICK AS A WINK

Easy As Rolling Off a Log to Stop A Cough or Cold With "CATARRHOZONE"

No more medicine for the stomach—that isn't where your cold is lodged. Just breathe in the healing vapor of Catarrhozone—a soothing healing medication that acts instantly. Colds, sore throat and catarrh fairly flee before Catarrhozone.

Every spot that is congested is healed, irritation is soothed away. Regain and secretions are cleaned out, and all symptoms of cold and catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhozone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhozone. All dealers sell Catarrhozone, large size, which lasts two months, price \$1.00; small size, 50c; sample size, 25c.

"The potatoes must be about ready to dig," said the girl.

"Yes, Boy's over to Paisley's after a fork, and when he gets back we're a dig to start in on 'em. There's this satisfaction about raisin' rats," he laughed, "—the squirrels and crows don't molest the crop any like they do the corn. It does seem we can't keep them out of the corn, though."

"It looks fine since you've got it out and shocked up," declared the girl; "and it does seem so good that we're gettin' such a nice piece of land cleared. Granny was tellin' me what that man who just left wanted to do, and I had to laugh when I thought how he could be so foolish as to think we'd be willin' to leave Bushwhackers' Place. 'Why, Granny,' says I, 'what do we want of a farm in Clearview when we've got one right here?'"

The big man's face lit up.

(To Be Continued)

Winner in Butter Contest

Results of Dominion Education Butter Scoring Contest

For May

Saskatchewan wins first place in the Dominion education butter scoring contest for the month of May, is the information received by P. E. Reed, dairy commissioner for the province. The province also tied with Manitoba for second place.

Four creameries in each of the nine provinces of the Dominion are entered in the contest, the scoring being made on samples sent in each month from May to October inclusive. Two Saskatchewan creameries received the highest possible scores for workmanship. The Cudworth branch of the Saskatchewan Co-operative Creameries scored highest with 97 points, and the same company's Birch Hills tied with the Crescent Creamery company of Winnipeg for second place, with 96 points out of 100.

No man is bound to be rich or great, nor to be wise; but every man is bound to be honest.

The Square Deal Pays

And square with the enemy every man gets when he separates himself from his corns by Putnam's Corn Extractor. For fifty years "Putnam's" only—it's painless and sure, 25c. at all dealers.

Newspaper Costs Still Mounting

The cost of the white paper on which newspapers are printed mounts steadily upward. The increased price which went into force on July 1st represents an added expense for Canadian publishers of not less than the huge sum of eight million dollars. In December, 1916, the price of newsprint was \$36 a ton. Early this year it was \$80. The new price is \$110 a ton—an increase of \$74 over the price prevailing up to 1916—more than 205 percent. For the last quarter of this year the price will be \$130 a ton, 261 percent over the cost price of four years ago.

Emigrants from Britain

Every Part of Canada Will Benefit From the Influx

Every part of Canada is to benefit by the influx of Imperial ex-soldiers who are coming to the Dominion to settle on farms under the special scheme decided upon by the Imperial and Dominion governments last year. Those already selected by the Dominion representatives, W. E. Scott, former deputy minister of agriculture, British Columbia, and Russell Wilson of Saskatchewan, will bring about a million dollars in cash, said Mr. Scott, at Halifax from the Cunard liner Caronia en route with Mr. Wilson to Ottawa where they will make an official report.

Of the thousands of applicants about 700 have been found suitable, during the stay in England of Messrs. Scott and Wilson. They are not the professional army officers type of men Mr. Scott said, but mostly were civilians before the war. They are sound and adaptable and come from York, Northumberland, Wales and Scotland, the best agricultural sections of the Old Land, and Mr. Scott declares they will adapt themselves to conditions here and make ideal farm settlers and citizens.

That Canada should get as many of this mass of settlers as possible is Mr. Scott's opinion, as Australia and New Zealand are going to send agents there this fall for the same kind of men and will offer big inducements. The two agents did not get a good slice of bread since they left Canada, they declared, Britain and many other parts of the world being short of wheat. Therefore they say there will be big prices for all the food produce Canada can export for years to come.

A critic is a grown-up boy who continues to throw stones.

ECZEMA IN RASH CUTICURA HEALS

On Face and Head. Itched and Burned. Disfigured.

"Last year I became afflicted with eczema. It started on the cheeks in a rash, and the water spread and made my face sore all around the ear and partly on my head. The skin was very sore and red, and the breaking out itched and burned so that I could hardly help scratching. My face was very disfigured."

"Then I used a free sample of Cuticura. It helped so I bought three cakes of Soap and one box of Ointment, and my face was healed." (Signed) Miss Martha Berger, Spanaway, Wash., Feb. 11, 1919.

Give Cuticura Soap, Ointment and Talcum the care of your skin.

Keep 25c. Ointment 25c. and Soap, Sold throughout the Dominion. Canadian Depot: Lyman, Limited, 55 St. Paul St., Montreal.

— Cuticura Soap shaves without hurt.

Prince Ships Stock by Express

The Prince of Wales shipped eight horses and eleven ponies by Dominion Express to his ranch in Alberta on the steamer Montcalm from Bristol on July 7.

Appear At Your Best—Instantly

If you receive a sudden call or an unexpected invitation you can feel confident of always appearing at your best. In but a few moments it renders to your skin a wonderfully pure, soft complexion that is beyond comparison.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists let you see the "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer."

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbonyl of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to avoid the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

RUSSIA REFUSES TO CEASE WAR ON POLAND

CALLS IT A ROBBER WAR

Lenine Blames Britain and The League of Nations For Trouble

London.—Refusal of the Russian Soviet government to cease war against Poland at the behest of Great Britain is contained in a Moscow wireless despatch. The refusal also constitutes an appeal to the workers and peasants of Soviet Russia and the Ukraine. It is signed by Premier Lenine, minister of war, Trotsky, the foreign minister, Tchitcherin and Kurski, commissioners of justice and says:

"The British government addressed a proposal to us, July 11, to cease war against Poland and begin peace negotiations with Poland and other border states, promising that the Polish troops would be withdrawn and in case of an armistice being signed will locate a frontier marked last year at the peace conference.

"In the same note it was proposed that General Wrangel and his Cossack shelter should not be touched. To all this we, the council of peoples' commissaries, arrived at refusal. If England had desired this they would have stopped supplying Poland with munitions and money.

"Lord Curzon, the British foreign secretary, places it upon the League of Nations, in whose name he is making the proposal, but Poland enters into the composition of this league—Poland, who commenced a robber war against us.

"All the members of the league, especially France, England and the United States are bound hand in hand in this provocative war of Poland against Russia and the Ukraine.

"Our refusal of hostile mediation does not mean that we have altered our policy towards Poland. Moscow more than once has proposed peace to Warsaw, and if she will now appeal to us directly, peaceful relations will be established between Russia and Poland, sooner, better and more substantially in this way."

The communication says the real frontiers which the Soviet government will establish with representatives of the Polish people will be east of the frontier marked out by "the Imperialists in London and Paris, who are equally inimical and hostile to the workers of Poland and Russia."

The communication declares: "Desires to receive an honest peace and an honest frontier and find in the person of Russia a brotherly neighbor, it is necessary that the Polish people should seek it."

Demonstration for Prince of Wales

Dramatic Scenes Enacted at Adelaide On Departure for Tasmania

Sydney, Australia.—The Prince of Wales has sailed for Tasmania. Extraordinary scenes of enthusiasm occurred when he departed from Adelaide. On Saturday the prince rode horses in several races at that city. He won the five-furlong sprint in the time of one minute and eight seconds.

Of all the demonstrations that have occurred in Australia, none was more dramatic than that when the prince addressed 6,000 women war workers. He asked them to treat him as a comrade, the same as the diggers have done.

As His Royal Highness left the hall he passed through cheering, weeping, flag-waving rows of women.

Cost of Living in England
London.—The minister of labor statistics show an increase in the cost of living in the British Isles of 152 percent above the level of 1914.

Cork Ladies Have Hair Clipped
London.—According to the Cork correspondent of the London News two girls, who, it is said, kept company with soldiers, were surrounded by four men, who clipped their hair.

Secure Best Prices for Wheat

Don't Rush to Sell, Says Toronto World to Farmers

Toronto.—"There need be no great hurry to rush to sell under the prevailing conditions," is the advice of the Toronto World to Canadian farmers in regard to their wheat. "For the next three weeks," says the World, "the bulls and bears will be sending out contradictory reports of the yield, of blights, or rust, of the grain unripened, perhaps, frozen wheat. In spite of all this the indications are of a big yield and high prices.

"And the farmers of Canada have better transportation in the way of railways, train equipment and a merchant marine, the best we ever had, than have the farmers of the states. We can sell and deliver wheat to them better than they can compete with us in Europe."

Irish Will Negotiate

London.—The Sinn Féin and the British government are prepared to discuss if they are not already discussing a basis of probable settlement of the Irish question, according to a statement recorded by the Daily Mail's Dublin correspondent.

The alarming increase of violence in Ireland, the correspondent says, is frightening the responsible leaders of the Irish Republican party, many of whom appear to be inclined to listen to any generous offer from Downing street, but it is understood the home rule bill, now being considered by parliament, must first be shelved before the leaders will enter into negotiations.

Russell to Remain in Durance

No Clemency to Winnipeg Strike Leader in Immediate Future

Ottawa.—A formal application for clemency, it is stated, has not yet been made in the case of R. B. Russell, chief of the Winnipeg strike leaders, who appealed without success to the Imperial privy council against his sentence of two years' imprisonment. While no official announcement has been made, it is not considered likely that there will be an exercise of clemency in the immediate future.

To Raise U.S. Railway Rates

Interstate Commerce Commission to Be Asked for Substantial Increase

Washington.—Freight and passenger transportation in the United States are to bear a substantial portion of the rate to be asked by the railroads of the interstate commerce commission to offset the \$600,000,000 added expense caused by the labor board's wage award, it was announced by A. H. Thom, general counsel for the association of railway executives.

TO PROSECUTE DEFAULTERS OF INCOME TAX

PROSECUTIONS SIMPLIFIED

Willful Defaulters of Federal Tax May Find a Rude Awakening

Ottawa.—Revenue from income taxation this year is expected to total \$40,000,000. While this is not in excess of last year, it is attributable to the fact that the measure of excess profits is not nearly as large now as was the case in 1919 when the collections were based on the last year of the war.

An amendment made to the act this year simplifies the prosecution of defaulters and it was announced today that there will be extensive prosecutions of delinquents, failure to make a return and the subsequent registration of a notice to the party is sufficient proof under the new act to secure conviction.

Winnipeg.—A special despatch to the Free Press from its Ottawa correspondent reads:

Willful defaulters from federal income taxation may find a rude awakening from the slumber of security into which a recent lull in prosecution has rocked them. Even now the office of commissioner of taxation is preparing a long list of the prescribed and police court proceedings throughout the Dominion will be varied during the coming weeks by prosecutions against other than ordinary offenders against the law. In the past prosecutions have been fraught with some difficulty and expense, witnesses were required. Under the amendments to the act passed last session, however, a registered letter is sent to the defaulter notifying him to make his return. If he fails to do so an affidavit is made out to the effect that the return has not been made. The fact of registration coupled with the affidavit is all that is required for prosecution and witnesses are not required. The chief reason for the lull in prosecutions recently is the fact that the department has been awaiting the facilitation mentioned. Now it can and will go ahead. The pardon found guilty is subject to two penalties. In the first place delay beyond the prescribed time in putting in returns subjects him to an additional impost of 24 percent of his assessment. In the second place he is subject to the penalty imposed for willful default.

Will Secure Grave Photos

Ottawa.—Emphatic denial is given to a statement appearing that no more photographs of soldiers' graves would be supplied to relatives owing to a shortage of funds. At the militia department it was explained that a Canadian photographic staff is still maintained overseas.

Every Canadian grave in France and Belgium is to be photographed and copies of the photograph in each case will be sent automatically to the next of kin through military headquarters at Ottawa.

Britain Leads in Shipping

Total Tonnage Exceeds the Amount Under Construction in United States

London.—Total tonnage now building in the United Kingdom exceeds the amount under construction in the United States by 1,672,000 tons, according to returns published by Lloyd's Register of Shipping. The aggregate amount now under construction in Great Britain is 3,578,000 tons, the highest amount ever recorded.

Much comment has been aroused in shipping circles this year by the figures, says the London Times. But, it adds, the failure of the United States to maintain its lead in ship building was expected since the intensive construction there was chiefly a war measure.

Privy Council Decision Settles Matter

Remaining Strike Leaders Will Call Off Appeals Now

Winnipeg.—The decision of the privy council in Russell's case will be accepted as disposing of contemplated appeals on behalf of the other convicted Winnipeg labor leaders, it was intimated by James Law, secretary of the defence committee. Mr. Law said he had no word as yet from Mr. Truman or from his London agents, but accepting the press report on the case as accurate, he intimated that there would seem to be no advantage in entering further appeals, which would of necessity have to be argued along lines similar to the Russell appeal.

Germany to Remain Neutral

Berlin.—An official statement was issued declaring Germany's complete neutrality in the situation arising from the hostilities between Russia and Poland. The statement was signed by president Ebert and Minister Simons.

News of the Provinces

MANITOBA

Winnipeg.—The settlers' fund for the purpose of populating arable land in Canada has received contributions totalling \$900,000 to date, Mayor N. A. Brown, Medicine Hat, reported to the executives of the Western Canada Colonization association at a meeting here.

Brandon.—James Boden of Lacombe, Alta., was awarded grand champion and junior champion in the Ayshire classes at the provincial exhibition here.

Winnipeg.—Six carloads of the 1920 wool crop have already been shipped from the provinces of Manitoba and Saskatchewan. Three cars were shipped from Regina and three from points in Manitoba. The total weight of these shipments was about 150,000 pounds.

SASKATCHEWAN

Regina.—The largest farm deal of the year in this area was transacted during the week, when a section and a quarter of land of the Corrigan estate south of Pense was sold for \$100 per acre including the crop. The total purchase price was \$112,000.

Saskatoon.—Discovery of a black substance thought to be of a coal or oil base has been made on the river bank three miles away. Samples have been sent to Winnipeg and several claims filed. The substance burns with a red flame and develops considerable heat.

Regina.—To boost the standard of production in livestock and keep the farmer in touch with the experimental, Saskatchewan agricultural societies are planning to spend \$500,000 this year. The societies now have a membership of 20,000.

BRITISH COLUMBIA

Victoria.—There are now in operation considerably more than 25,000 automobiles in British Columbia.

MAY APPOINT NEW MINISTER IN LONDON

CANADIAN REPRESENTATIVE

Some Difficulty May be Found in Filling the Position Now Occupied by Perley

Winnipeg.—A special despatch to the Free Press from its Ottawa correspondent reads:

No confirmation of the report that the status of Canada's federal representative in London is to be changed and that Sir George Perley is to be replaced by a resident minister, can be secured here for the reason that the premier is in Montreal, and there is nobody left behind who will take the responsibility of affiliation or denial.

The rumor is by no means new, in fact it has been current ever since Sir George Perley made it known over a year ago that he desired to retire from the high commissionership and return to his business in Canada.

The position appears to be about as hard to fill as that of Canadian representative at Washington. It differs from the latter in an important respect. It is essentially a trade position, which the other is diplomatic. The man upon whom the choice falls for the Washington position may find himself at any time in full charge of the British embassy.

Sir George Foster's name has been mentioned many times for the London position, but Sir George is not a young man any longer, neither is he a man of very considerable means, and youth and means are both required to grace the position. For the Washington position, Sir Robert Borden, Hon. N. W. Rowell, Mr. Lloyd Harris, and Mr. C. A. McGrath have all been mentioned in authoritative circles here. It is believed that the two first may be eliminated from the speculation entirely, though it is realized that Mr. Rowell in particular is eminently fitted for the position.

MONITOR ALBERTA

Dear Fellow-soreheads,

It is a very lamentable fact that in spite of our most valiant efforts, the various Clubs and organizations in town are having a very successful and jolly time. Especially is this noticed in the Monitor Lawn Tennis Club. As a last resource, I have worked out the following for which all of us had better put into practice at once, and see what results we can get. I will call it "How to kill a Club"

Dont come. If you do come, come late. Always complain that its too hot or too cold. Kick if you are not appointed on a committee, and if you are appointed, never attend a meeting. Always complain about the way other people are doing the work. Hold back your dues or never pay them at all. Dont do any more work for the club than you can possibly help. Then when the few take off their coats and do things, howl that the club is being run by a clique. Complain that the folks that work are neglecting their other business. In this way, dear friends, we will accomplish our object, and the club will die a natural death.

Poor-Sport Grouch
Chief-Knocker.

The Maytag Company

Winnipeg Limited Calgary

Last week, in this paper, we used about a foot of space to tell something about the

Maytag Multi-Motor Washer

This is but a reminder. If you read the adv. in last week's paper all well and good, and if you overlooked it, it will be time well spent if you find a copy and read it very carefully. It is a hard job these hot, sultry days to bend over a washboard or turn a hand washer. A MAYTAG Multi-Motor washer, with a powerful, light, compact, half horse, air-cooled engine built right in as a part of the washer is one thing above all others that should be in every home where there is no electric current. Ask the implement or hardware dealer in your home town where you do your trading to tell you about it. If he refuses, then drop us a line and we will, and will also send you free a copy of the MAYTAG Laundry Manual.

A British ocean liner has installed a small branch of a London bank as a convenience to its passengers.

"I Cannot Go"

BILIOUS headache spoils many an expected enjoyment.

When the condition of the liver is neglected, biliousness seems to become chronic and recurs every two or three weeks, with severe sick headaches.

Why not get right after this trouble and end it by using Dr. Chase's Kidney-Liver Pills to restore the health and activity of the liver.

Constipation, indigestion, backache, headache, biliousness and kidney derangements soon disappear with the use of this well-known medicine.

One pill a dose, 25 cts. a box, all dealers. An Edmonton, Bates & Co., Ltd., Toronto.

Dr. Chase's Kidney-Liver Pills

To Reclaim Half Million Acres

Inundated Areas in Alberta and Saskatchewan to be Drained

Forty reclamation projects involving 400,000 to 600,000 acres of land are planned in Alberta, and surveys are being conducted to determine cost and means of bringing water covered areas into agriculturally-useful surfaces. Among the lakes which will be drained will be Sullivan Lake, near Wabamun, Chip Lake, Cygnet Lake, near Entwhistle, and certain low lying stretches in the Lesser Slave Lake. The scheme will embrace inundated Saskatchewan areas and east of Prince Albert, and 1,000-mile tract between the Carrot and Saskatchewan Rivers will be surveyed this summer.

Holloway's Corn Cure takes the corn out by the roots. Try it and prove it.

British Military and Naval Costs
Great Britain's expenditures on naval and military operations in Russia from the time of the signing of the armistice with Germany, Nov. 11, 1918, to March 31, last, amounted to \$55,973,000, according to a parliamentary paper just issued.

Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

Belgium's Recovery

Country's Exports May Exceed Imports Before End of Year

Belgium is making rapid recovery from German depredations committed in the world war. At the close of the war 2,000 kilometers of railroads, 1,800 bridges, 600 kilometers of canals, telegraph, and telephone systems and a third of the factories of the country had been destroyed. Recovery has been proceeding steadily since the armistice, and Emile Franqui, the Belgian minister of state, writing in the magazine "Wall Street," states that the railways, telegraphs, and telephones have been almost entirely repaired. The canals are navigable and many industries have been revived. Already coal production is a little higher than in 1913, reaching 105 percent of pre-war output in the month of April last. Textile and wool production are gradually being restored to normal and plate glass works are in full operation. The progress has been slower in the steel construction plants.

Exports, he added, to Holland, France, Italy and Germany surpass imports from those countries. The balance with England is slowly but surely readjusting itself, and from the present indications it appears probable that before the end of the year Belgium will export more than she imports.

In Japan straw is converted into bags for grain, shoes for the feet, raincoats for the body, roofs for the houses, paper mats, screens, beds, and numerous other articles.

Minard's Liniment Relieves Dis-temper.

Emigrants Flock To the Dominion

European Invasion of Canada Assuming Large Proportions

The publicity department of the C. P. R. states that the great European invasion of Canada has been experiencing since shipping was released is very general and drawing immigrants from a large area. Every continent-al country, ally and neutral is contributing its quota to the growing stream.

A steamer sailing from European points for the Dominion is crammed to capacity and the class of Canadian settler was never higher nor of a better type. The vessels of the C. P. R. alone handled 26,126 passengers in April and May, and of this total 15,350 avowed their intention of settling in the Dominion and making their future homes here.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil, which acts like magic. All similarly troubled should lose no time in applying this splendid remedy; as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Forgotten

Memory of even the most important episodes in contemporary history is remarkably short. Six years ago last Monday Archduke Francis Ferdinand was murdered by Princip, a fanatic whose act played into the hands of the junkers and militarists of Germany and Austria and furnished the pretext for the greatest war of all time. Yet few people and few newspapers commented on the anniversary. The date had been almost completely forgotten and it is doubtful if ten persons in a hundred could have recalled the names of the actors in this prologue to the great tragedy. —Ottawa Citizen.

Minard's Liniment Co., Limited.

Dear Sirs,—This fall I got thrown on a fence and hurt my chest very bad, so I could not work and it hurt me to breathe. I tried all kinds of liniments and they did me no good. One bottle of MINARD'S LINIMENT, warmed on flannels and applied on my breast, relieved me completely.

C. H. COSSABOOM.
Rossway, Digby Co., N. S.

Brute Centenarians

Elephants are perhaps the longest lived members of the animal kingdom, averaging between 100 and 200 years. There are records of elephants living 350 years. Most naturalists allow the whale about the same length of life as the elephant. The camel comes third, averaging about 75 years. The average life of a lion and a tiger is 40 and 25 years respectively.

THE MAN WHO WINS

Is Always Full of Life and Energy—Failures are Weak and Bloodless

Some men seem to have all the luck. If there are any good things going these men seem to get them. They make other people do their will—they are leaders. If they are business men they are successful; if they are workmen they get the foreman's job. They have the power of influencing people.

The same thing is true of women. Some have the charm that makes men seek them out; others are always neglected. But this is not luck, it is due to a personal gift—vitality. Men and women of this sort are never weak, puny invalids. They may not be big, but they are full of life and energy. The whole thing is a matter of good blood, good nerves and good health. Everyone would wish to be like this and the qualities that make for vitality and energy are purely a matter of health. By building up the blood and nerves, sleeplessness, want of energy, weakness of the back, stooping shoulders, headaches and the inefficient sort of presence which really comes from weakness can all be got rid of. Dr. Williams' Pink Pills have made many weak, tired men vigorous and healthy, and many pale, dejected girls and women, plump, rosy and attractive, by improving their blood and toning up their nerves. If you are weak, ailing, low-spirited or unhealthy, try Dr. Williams' Pink Pills and note their speedy, beneficial effect.

You can get these Pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

YOUR good intentions don't pay the grocers' bills. Your family has to live even if you don't. Secure a Monthly Income Policy now. Write for pamphlet to-day.

Tractor Seeding Mark

352 Acres in One Day Sets a New Record

What is said by motorized farming authorities to be a record in light tractor seeding has been accomplished by a Manitoba farm worker. James E. Tyner seeded 135 acres of flax in one day, using a light tractor drawing two 12-foot double-disc drills. His combined acreage with that of two other men for the same day was 352 acres.

The average acreage seeded in a day with the same equipment is from 40 to 50 acres, according to the ranch manager. Tyner is 23 years old, and lives at Treesbank, Han.—Manitoba Free Press.

Had His Game Trapped

A young Swede appeared at the county judge's office and asked for a license.

"What kind of a license?" asked the judge; "a hunting license?"
"No," was the answer, "aye tank aye bank hunting long enough aye want marriage license."

DANDRUFF SOON

GETS YOUR HAIR

Let "Danderine" check nasty scurf and stop hair falling out

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub well into the scalp. After several applications all dandruff usually goes and hair stops coming out. Every hair in your head soon shows new life, vigor, brightness, thickness and more color.

Merely A Boiled Egg

If You Don't Know How to Boil an Egg This Will Explain

There is a great difference in eggs—some cling to the shells more than others. "Hard boiled" eggs should not be boiled; they should be cooked below the boiling point for twenty to thirty minutes, and will be more digestible (the albumen is not hardened) and will peel more easily. However, the egg should be dipped in cold water for a few minutes before removing the shell and this does away with the last bit of difficulty. Hurry and "boiling hard" to get a hard-cooked egg makes most of the trouble. It takes a little time to do anything well—even cooking an egg in the shell, which sounds like the last word in simplicity.

Canada's Fleet Due in September

The Naval Fleet, consisting of a cruiser, two destroyers, and two submarines, which the British government has presented to the admiralty, are expected to come out in September. Commander Hose, who recently went to England to supervise the taking over, has asked that a number of other officers be sent across. The ships are now being overhauled and got in readiness for service. They may be quartered at Halifax in summer and Esquimaux in winter. Commander Hose is likely to succeed Admiral Kingsmill as director of the Canadian Naval Service.

A Pleasant Purgative.—Purmacel's Vegetable Pills are so compounded as to operate on both the stomach and the bowels, so that they act along the whole alimentary and excretory passage. They are not drastic in their work, but mildly purgative, and the pleasure of taking them is only equalled by the gratifying effect they produce. Composed only of vegetable substances the curative qualities of which were fully tested, they afford relief without chance of injury.

Men of character are the conscience of the society to which they belong.

At The Tennis Courts

Considerable interest is being
taken by most players in the
Tournament, which is now well
under way. Mrs. Ehlinger won
out in the Ladies singles, by
defeating Mrs. Warner. Mrs.
Ehlinger has since been chal-
lenged by Miss Hayes, who has
lately joined the Club. Mens
singles are slowly being fought
out. Waters lost to McDonald
Hayes to Warner. P. Davidge
to F. Connah. Galbraith to
Moth. McGirr to MacKenzie.
Dickson, instead of winning on
a bye, will have to play A. Stone
a new member. McKenzie to
play Moth. Connah to play the
winner of the Osborne-Davidge
set. The winner of Stone-Dick-
son set gets a bye into the
semi-finals, playing the winner
of the Moth-MacKenzie set.
